GAM GEAR and COUPLINGS

gamweb.com • 888-426-7117

GAM is a manufacturer of Gear Reducers, Servo Couplings, Linear Mounting Kits, and other innovative products used to automate machinery. With helical, hypoid, spur, and spiral bevel gear technology, GAM has a gear reducer that will suit your application. We offer in-line or right angle, off the shelf or custom in a wide array of configurations and frame sizes. Whether bellows, elastomer, safety, or distance, GAM has a coupling that will meet your requirements. All of our couplings are zero backlash and custom machined per order.

HILLIARD CORPORATION

hilliardcorp.com • 607-733-7121

Roller-ramp overrunning clutches offer motion control solutions for indexing, dual drive, and backstop applications. Additional designs include centrifugal clutches, mechanical slip clutches, and electric brakes. Hilliard also offers a complete line of Twiflex Caliper Disc Brakes for mechanical, electric, pneumatic, hydraulic, and spring-set applications.

FORCE CONTROL INDUSTRIES, INC.

forcecontrol.com • 513-868-0900

Force Control Industries, Inc. manufactures superior quality, unique design clutches and brakes for industrial equipment. Based on oil shear technology our clutch and brake products provide superior life, as well as smooth operation, and quick response. The Posidyne® clutch brake provides extremely long life and is an excellent choice for high cycle applications. The Posistop® brakes are available in a variety of mounting styles ... traditional motor brake mount, double C-face, foot mounted, and many custom configurations.
